The conveyor belt material “PA 27/3 R” (polyamide fabric) complies with the following regulations:

- Regulation (EC) No. 1935/2004 on materials and articles intended to come into contact with food, as amended intended to come into contact with food
- Regulation (EC) No. 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food. The material has been in accordance with the relevant requirements of this Regulation.
- Regulation (EU) No. 10/2011 on plastic materials and articles intended to come into contact with food.

The product complies with the relevant requirements of Regulation (EU) No. 10/2011 as amendedand is suitable for direct contact with:

- dry and fatty or oily foodstuffs according to Annex III, Table 2- up to 2 hours contact time at up to 70 °C
- not for aqueous, acidic and alcoholic foodstuffs according to Annex III, Table 2

The raw materials fulfill the requirements of this regulation in its current version.

The product does not lead to unacceptable changes in the sensory properties of the food.

The above mentioned product does not contain dual-use additives according to Regulation (EC) No. 1333/2008 (food additives) and Regulation (EC) No. 1334/2008 (flavorings) as amended.
The product contains: Polyamide

The testing of overall migration, specific migration and other applicable restrictions (maximum permitted amount, primary aromatic amines, etc.) were carried out in accordance with this regulation as amended.
Ratio of the surface area in contact with foodstuffs to the volume used to determine the conformity of the article was determined: 6 dm^2/dm^3

Food simulants and migration conditions for the migration tests:

- D2 (vegetable oil) 2 h at 70°C
- E (Tenax) 2 h at 70°C

We confirm that the material used does not contain any non-intentionally added substances (NIAS) according to Regulation(EU) No. 10/2011, does not contain any non-listed substances according to Annex I of Regulation (EU) No. 10/2011, is free from PFAS (per- and polyfluorinated alkyl substances) and does not contain bisphenol A (BPA). This information is based on the data available to us from the raw material suppliers and internal assessmentsaccording to the state of the art.
