DECLARATION OF CONFORMITY

Declaration of compliance of the material
PVC 1261/48 B

Created:	Approved by Management:	Version:	Date:	Repl.:
O. Carstensen	B. Funke	02	24.01.2025	01

According to our suppliers, the conveyor belt material “PVC 1261/48 B” (polyester fabric with PVC coating) complies with the following EU directives, including all amendments up to the date of publication of this declaration.

- 1935/2004 / EC, in particular this refers to the relevant articles 3, 11(5), 15 and 17
- 2023/2006 / EC
- 10/2011 / EC

This product complies with the requirements for contact with all types of foodstuffs requiring testing with simulants A, B, C and/or E as defined in Directive 10/2011/EC and its amendments up to the date of publication of this declaration.
With the restriction that contact is limited to 70 °C and up to 30 minutes of repeated use.The contact of foodstuffs of type 01.04, unsaturated ethyl alcohol, is not supported with this belt in accordance with the legislation.

This product complies with the requirements for contact with all food types requiring testing with simulant D1 and/or D2 as defined in Directive 10/2011/EC and its amendments up to the date of publication of this declaration.

With the exception of food type 01.04. contact is limited to 40 °C for up to 30 minutes with repeated use.

This product complies with the requirements for contact with food types 08.02, 08.03.A.I, 08.06.A, 08.08.A as defined in Directive 10/2011/EC and its amendments up to the date of publication of this declaration.

With the restriction that contact is limited to 70 °C for up to 30 minutes with repeated use.

The material meets the requirements for color fastness according to Resolution AP89(1).

The contact times and temperatures were chosen to correspond to the actual use of our product.

The ratio of food contact surface area to volume used to determine the conformity of the product is 6 dm^2/kg.

It contains one or more substances for which a specific migration limit (SML) or a quantitative maximum (QM) applies.

Our product complies with all SML and QM restrictions applicable to the above mentioned conditions of repeated use.

DECLARATION OF CONFORMITY

Declaration of compliance of the material
PVC 1261/48 B

FDA compliance:

The coating complies with FDA CFR21 §175.300 under conditions C through G for the following food types:

Non-acidic (pH above 5.0), aqueous products; may contain salt and/or sugar and low or high fat oil/water emulsions.
Acidic (pH 5.0 or below), aqueous products; may contain salt and/or sugar and oil/water emulsions with low or high fat content.
Aqueous, acidic or non-acidic products containing free oil or fat; may contain salt and water/oil emulsions with low or high fat content.

Dairy products and modifications:

A. Water/oil emulsion with high or low fat content.
B. Oil/water emulsion with high or low fat content.

Fats and oils with low moisture content.

Beverages: Non-alcoholic.Bakery products.

Dry solids.

In addition, conditions of use should be equal to or less than “Pasteurize above 65 degrees Celsius”.
